High Performance Coatings

TDS

| | |
|---------------------|---|
| Colour/Type | Clear transparent / Storage Coating |
| Areas of usage: | All painted surfaces or non coated metals |
| Environment: | VOC based, Please check local requirements and SMDS |
| Packaging: | 500ml Aerosol |
| PPE: | Wear dust-mask and gloves. Avoid skin contact. Refer to MSDS |
| Storage: | Approximately 24 months. Prevent from leaking into the ground. Min/Max temp +15/+30°C. |
| Surface prep: | Clean dust and grease free. Temp not below 15 degrees |
| Equipment needed: | N/A |
| Tests: | ISO9001. (For further information contact Leading Solvent Supplies Ltd) |
| Applying/Drying: | Shake the aerosol can for 1 minute before spraying. Very thin layer. Drying at the standard atmospheric temperature of 15°C takes approximately 30 minutes. |
| Origin/Manufacture: | Leading Solvent Supplies Ltd |

Useful Information

How to optimise the use of MPEX® 100C

Applications:

MPEX® 100C protects the painted metal from UV-radiation, aggressive chemicals and atmospheric pollution, during transport and storage. Even after one year in heavy conditions, the film is easily removable with an organic degreaser.

MPEX® 100C does not affect other details commonly used on cars, such as rubber, plastics and aluminium. MPEX® 100C has low aromatic content. The product dries in minutes, easily withstanding rain or water splashing. MPEX® 100C is designed for protection of newly painted cars or other similar painted surfaces. MPEX® 100C can also be used on areas in need of temporary, corrosion protection.

Method of use:

MPEX® 100C is applied by spraying. Shake the aerosol can for 1 minute before spraying. Once you have finished spraying turn the can upside down and spray briefly to clear the nozzle for future usage.

IMPORTANT

MPEX® Are manufactured by Leading Solvent Supplies Ltd. MPEX® products information are based on laboratory tests and practical experience. Since the conditions under which the product is used are often outside the control of Leading Solvent Supplies Ltd, we can only guarantee the product quality, since the result is dependent on the substrate, pre-treatment, temperature, air humidity, application etc. Leading Solvent Supplies Ltd reserves the right, without notice to change the product and the given data.
