### Useful Information

#### How to optimise the use of MPEX® Acrylic Clear Lacquer

##### **Applications:**

MPEX® Acrylic Clear Lacquer provides a high gloss clear protective coating that is smooth whilst being resistant to petrol and oil. Compatible with most acrylic and cellulose paints. Before applying you must ensure that the paint coating is completely dry and the surface has been degreased. We strongly recommend you test on a small inconspicuous hidden area to ensure compatibility prior to use. MPEX® Acrylic Clear Lacquer is compatible with the MPEX® Touch up paint pen, custom filled aerosol and bottle & brush products when conducting vehicle paintwork repairs. The clear lacquer provides a protective top coat however please check your vehicles paintwork finish before applying to ensure a perfect finish.

##### **Method of use:**

Once the applied paint has completely dried and has been cleaned the 1k ready to use clear coat in an aerosol can be sprayed over the surface area. It is used for finishing coated surfaces in order to achieve a high gloss, UV resistant, durable finish.

#### **IMPORTANT**

MPEX® Are manufactured by Leading Solvent Supplies Ltd. MPEX® products information are based on laboratory tests and practical experience. Since the conditions under which the product is used are often outside the control of Leading Solvent Supplies Ltd, we can only guarantee the product quality, since the result is dependent on the substrate, pre-treatment, temperature, air humidity, application etc. Leading Solvent Supplies Ltd reserves the right, without notice to change the product and the given data.
